

## Global Management Challenge

The Global Management Challenge is organized by the company Euromanager.

GMC is a competition between several teams, compiled by the biggest French business schools and companies. After having been trained and selected in the transversal modules and business simulations, MIM and MBA students represent the Cnam-IIM to participate in GMC competitions. In 2009, the Cnam-IIM team won the National Championship trophy for France, and participated in the International Championship. The Cnam-IIM are very proud with their GMC teams as every year from 2010 the Cnam team presents in the final round of France, among the best 8 schools in National French Challenge.
